## **INDEPENDENT AUDITOR'S REPORT**

The Chairman and Commissioners of  
Camden County Municipal Utilities Authority  
Camden County, New Jersey

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the business-type activities of the Camden County Municipal Utilities Authority, in the County of Camden, State of New Jersey, a component unit of the County of Camden (Authority), as of and for the years ended December 31, 2017 and 2016 and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with audit requirements as prescribed by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Camden County Municipal Utilities Authority, in the County of Camden, State of New Jersey, a component unit of the County of Camden as of December 31, 2017 and 2016, and the changes in its financial position and its cash flows thereof for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

**Other Matters**

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of the Authority's proportionate share of the net pension liability and schedule of the Authority's contributions as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The accompanying supplementary schedules as listed in the table of contents are not a required part of the basic financial statements.

The accompanying supplementary schedules as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary schedules, as listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 18, 2018 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

**INDEPENDENT AUDITOR'S REPORT**

The Chairman and Members of  
Camden County Municipal Utilities Authority  
Camden County, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and in compliance with audit requirements as prescribed by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey, the financial statements of the business-type activities of the Camden County Municipal Utilities Authority, in the County of Camden, State of New Jersey, a component unit of the County of Camden, (Authority), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated June 18, 2018.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

31700

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and the audit requirements as prescribed by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and the audit requirements as prescribed by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**CAMDEN COUNTY MUNICIPAL UTILITIES AUTHORITY  
MANAGEMENT’S DISCUSSION AND ANALYSIS  
For the Years Ended December 31, 2017 and 2016 (unaudited)**

**INTRODUCTION TO THE ANNUAL REPORT**

The following Management’s Discussion and Analysis (MD&A) of the Camden County Municipal Utilities Authority provides an introduction to the financial statements of the Authority for the year ended December 31, 2017. The financial section of the annual report consists of three sections: Management’s Discussion and Analysis (this section), the basic financial statements together with the notes thereto and supplemental information. The financial statements section provides comparisons between current and prior years’ results as well as budgeted and actual results on a supplemental schedule.

The Authority’s financial statements are prepared on an accrual basis in accordance with accounting principles generally accepted in the United States of America, promulgated by the Governmental Accounting Standards Board. The Authority is structured as a single enterprise fund with revenues recognized when earned and expenses recognized when incurred. Capital assets are capitalized and depreciated over their useful lives (with the exception of land and construction in progress). See notes to the financial statements for a summary of the Authority’s significant accounting policies.

**THE FINANCIAL STATEMENTS**

The “Comparative Statements of Net Position” provide information about the nature and amounts of investments in resources (assets), future period reductions of net position (Deferred Outflows of Resources), the obligations to Authority’s creditors (liabilities) and future period acquisitions of net position (Deferred Inflows of Resources) with the difference reported as Net Position.

The “Comparative Statements of Revenues, Expenses and Changes in Net Position” account for all of the current year’s revenues and expenses, measures the success of the Authority’s operations over the past two years and can be used to determine how the Authority has funded its costs.

The “Comparative Statements of Cash Flows” provide information about the Authority’s cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities.

The “Notes to Financial Statements” contain information that is essential to understanding the basic financial statements, such as the Authority’s accounting methods and policies. The details of contractual obligations and future commitments and contingencies of the Authority are also included. Likewise, any other events or developing situations that could materially affect the Authority’s financial position are noted.

**SUPPLEMENTARY INFORMATION**

This section provides presentations of the Authority’s financial information in accordance with the requirements of the various Bond Resolutions.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT'D)  
For the Years Ended December 31, 2017 and 2016 (unaudited)**

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

It provides an assessment of how the Authority's position has improved or deteriorated and identifies the factors that, in management's view, significantly affected the Authority's overall financial position. It may contain opinions, assumptions or conclusions by the Authority's management that should not be considered a replacement for, and must be read in conjunction with, the financial statements described above.

The following table provides a summary of the Authority's net position for 2017, 2016 and 2015.

**CAMDEN COUNTY MUNICIPAL UTILITIES AUTHORITY  
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT'D)  
For the Years Ended December 31, 2017 and 2016 (unaudited)**

**CHANGES IN FINANCIAL POSITION**

During the year ended December 31, 2015, the Authority was required to implement Governmental Accounting Standard Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*. The pension liability is based on an actuarial estimate and the actual payments may vary as they will be paid over the employees' lifetime through retirement. The following table provides in illustration of the impact that GASBS 68 and 71 had to the Authority's Unrestricted Net Position.

**Statement of Net Position - Effect of Pension Related Items**

|   | <u>2017</u>            | <u>2016</u>            | <u>2015</u>            |
|---|------------------------|------------------------|------------------------|
| Deferred Outflows of Net Positions          | \$ 8,230,985           | \$ 11,826,865          | \$ 4,499,339           |
| Less: Accounts Payable Related to Pensions  | (1,072,518)            | (1,067,762)            | (962,625)              |
| Less: Accrued Liability Related to Pensions | (536,259)              | (533,881)              | (481,313)              |
| Less: Net Pension Liability                 | (26,950,224)           | (35,597,204)           | (25,134,585)           |
| Less: Deferred Inflows Related to Pensions  | <u>(6,197,032)</u>     | <u>-</u>               | <u>(404,116)</u>       |
|   | <u>\$ (26,525,048)</u> | <u>\$ (25,371,982)</u> | <u>\$ (22,483,300)</u> |

Since this pension liability is considered a long-term liability, the Authority's management does not include these amounts when making current operating decisions. Management feels the current ratio, which is the comparison of current assets to current liabilities, combined with the fact that there will be a significant reduction in current debt service payments in 2018 is the best way to evaluate the operations of the Authority.

In 2017, the Authority's net position increased by 8.63% from 2016 and increased by 16.76% from 2015. The increases over 2016 and 2015 were due to the continued pay down of long-term debt and related decrease in interest expense. Interest expense in 2017 decreased by \$2,416,768 or 32.27% from 2016 and decreased by \$5,780,287 or 52.80% from 2015.

The purchase of a Municipal Bond Debt Service Reserve Insurance Policy to cover the debt service reserve requirement allowed the Authority to de-obligate \$18,000,000 of investments that were previously restricted. These funds were used to finance a portion of the operations and capital program of the Authority without increasing rates. Management feels a large rate increase would not have been appropriate to finance the additional operation and capital needs due to the previously mentioned significant drop in debt service in 2018.

The Authority's Bond Resolutions and State Regulations govern Restricted Assets. The category Restricted Assets decreased by 32.79% from 2016 and decreased by 37.76% from 2015 due to a decrease in Cash Held by Fiscal Agent as well as a decrease in restricted investments as the Authority used the Debt Service Reserve Fund and Special Reserve Fund to pay down the debt after a Municipal Bond Debt Service Reserve Insurance Policy had been obtained in the amount of \$18 million.

**CHANGES IN FINANCIAL POSITION (CONT'D)**

The decrease in Long-Term Liabilities comes primarily from pay down of debts in the form of Bonds and Loans. The Authority continues to reduce its outstanding debt from its User Revenues and Debt Service Reserve Fund as required by the Bond Resolution.

**CAMDEN COUNTY MUNICIPAL UTILITIES AUTHORITY  
MANAGEMENT’S DISCUSSION AND ANALYSIS (CONT’D)  
For the Years Ended December 31, 2017 and 2016 (unaudited)**

**CHANGES IN NET POSITION (CONT’D)**

The 2017 total operating revenue showed an overall decrease of 0.84% from 2016 and an increase of 1.13% from 2015. The decrease in 2017 from 2016 was due to lower connection fees realized as a substantial amount of connection fee was realized in 2016. Connection fees realized in 2017 were \$867,405 or 20.25% lower than 2016. The increase over 2015 was a result of increased service charge from industrial users that had connected in 2016 and are being billed service charges in 2017.

The Authority’s total operating expenses in 2017 decreased by \$2,579,169 or 3.90% from 2016 and decreased by \$1,845,748 or 2.82% from 2015. The decrease in 2017 from 2016 was due to reductions in pension expense, chemical expense and repair and maintenance costs.

In 2017, Non-operating revenue, net of expenses, decreased by 32.54% compared to 2016 and by 65.71% compared to 2015 because of a reduction in interest expense and the Authority did not make contributions to the County of Camden in 2017 or 2016.

**BUDGETARY HIGHLIGHTS**

The Camden County Municipal Utilities Authority must adopt a budget in accordance with N.J.A.C. 5:31-2. The Budget is adopted on the accrual basis of accounting with provisions for cash payments for bond principal. Significant variances between the original adopted budget and the actual expenditure amounts fall within two categories of favorable and unfavorable and the unfavorable ones, along with explanations, can be seen in detail below.

| <u>Category</u> | <u>Appropriation</u> | <u>Expenditure</u> | <u>Excess</u> | <u>Comment on Excess</u>   |
|-----------------|----------------------|--------------------|---------------|--|
| Administration: |                      |                    |               |  |
| Other Expenses  | \$3,529,473          | \$4,191,190        | \$661,717     | Higher than expected bank fees and debt service admin fees; higher than expected bad debt expense and contingency expense. |

**DEBT ADMINISTRATION**

During the year 2017, the Authority continued to pay down its outstanding debt from operating revenues and using the Debt Service Reserve Fund. The Authority had additional borrowings in 2017 from the New Jersey Environmental Infrastructure Trust to fund the Phase 2 of City of Camden Green and Grey Infrastructure Improvement project as well as refunding certain prior year New Jersey Environmental Infrastructure Trust Bonds.

In addition to capital borrowings and refunding, the Authority also entered into agreements with the County of Camden, as well as commercial lending banks for the provision of short term financing notes to fund a deficit in the Authority’s revenue. As of December 31, 2017, the Authority has one tax-exempt and one taxable subordinate temporary funding notes in the aggregate amount of \$29,000,000 with a maturity date of August 2, 2018.

**CAPITAL IMPROVEMENTS AND CONSTRUCTION ACTIVITY**

**Note: All of the following construction projects will be funded with New Jersey Environmental Infrastructure Trust loans with 30-year terms and below market interest rates (currently below 1%).**

A) Wastewater Treatment Plant----In 2017, the CCMUA was in the design phase for four improvements to the treatment plant. Construction for each of these projects should start in 2018.

- 1) Improvements to Delaware #1 Water Pollution Control Facility's (WPCF) Raw Sewage Pumps – this improvement will increase the total pumping capacity at the headworks of the plant and will allow for more efficient and accurate control of the pump system via the installation of variable frequency drives. Estimated Cost - \$10,000,000.
- 2) Construction of a New Junction Chamber at the Delaware #1 WPCF Headworks – a new junction chamber will be constructed which will allow the Camden City interceptor and the County interceptor to be separated thereby allowing for more flow from each line during storm events. Estimated Cost - \$7,000,000.
- 3) Wet Weather Capacity Improvements – Hydraulic bottlenecks within Delaware #1 will be eliminated via construction, which will increase the wet weather capacity of the plant to 185 MGD (currently 150 MGD). Estimated Cost - \$4,000,000.
- 4) Sludge Digester and Combined Heat & Power System – a sludge digester will be constructed which will eliminate 50% of the sludge that is currently being disposed of via landfill at a cost of approximately \$105/ton. Gas produced by the digestion process will be fed to a combined heat and power system, which produce approximately 90% to 95% of the Delaware #1 WPCF's electricity needs. Cost - \$76,164,967 – a 19% grant has been secured for this project.

Construction on the Digester began on February 1<sup>st</sup> and the CHP started on May 1<sup>st</sup> 2018.

B) Camden City Combined Sewer Overflow System Improvements to Mitigate Combined Sewage Flooding

- 1) Camden City Green and Gray Infrastructure, Phase III. Phase III is similar in scope to Phases I and II. The project is currently in the design and permitting stage. Construction began in 2017 and will end in 2018. Cost - \$2,641,264.
- 2) Construction of a Stormwater Pump Station – in an effort to eliminate flooding in the Central Camden Waterfront Area, the CCMUA is currently designing a pump station, which will allow flood control up to a ten-year storm. Estimated Cost - \$22,500,000 (\$16,500,000 – CCMUA & \$6,000,000 - Camden City). Construction to begin in 2018.

**CAPITAL IMPROVEMENTS AND CONSTRUCTION ACTIVITY (CONT'D)**

B) Camden City Combined Sewer Overflow System Improvements to Mitigate Combined Sewage Flooding (Cont'd)

- 3) Upgrade to Camden City Collection System – in conjunction with the stormwater pump station, the CCMUA is designing improvements to the Camden City collection system, which will allow for the elimination of flooding at the Central Camden Waterfront during storm events up to a ten-year period. Camden City is responsible for the construction cost associated with this project. Estimated Cost - \$3,500,000. Construction to begin in 2018.
- 4) Dredging of Camden City Combined Sewer Outfalls – in conjunction with the stormwater pump station and collection system upgrades, the CCMUA is designing a plan to dredge 9 outfalls thereby allowing the combined sewer system to operate as designed. Camden City is responsible for the construction cost associated with the project. Estimated Cost - \$4,000,000. Construction to begin in 2018.
- 5) Green Infrastructure in Support of Elimination of Flooding in Central Camden Waterfront District Projects – a series of green infrastructure projects is being designed which will eliminate approximately 7,000,000 gallons per year from the combined sewer system. Estimated Cost - \$6,000,000 including a \$2,000,000 grant from the NJEIT. Construction to begin in 2018.

C) Newton Lake Dredging – Design of dredging needed to return Newton Lake to optimal health. The apportionment of the construction cost responsibility, between the County and the CCMUA, remains. Estimated Cost - \$25,000,000. Construction to begin in 2018.

D) Regulatory Requirements ----In March 2015, the NJDEP issued a new permit to the CCMUA, Camden and Gloucester Cities which requires these entities to work together to develop a long term, sustainable plan to eliminate combined sewage flooding and combined sewage overflows. This will require, ultimately, implementation of a multi-pronged approach including a significant amount of capital improvements to both the CCMUA's sewage treatment plant and the Cities' sewer collection systems. The CCMUA is currently developing the NJDEP-required plan and expects to submit the plan within 18 months.

**CAMDEN COUNTY MUNICIPAL UTILITIES AUTHORITY**  
Notes to Financial Statements  
For the Years Ended December 31, 2017 and 2016

---

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Camden County Municipal Utilities Authority (the "Authority") have been prepared to conform with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant of these policies.

**Reporting Entity**

The Camden County Municipal Utilities Authority is a public body corporate and politic of the State of New Jersey and was originally created by an ordinance duly adopted on March 15, 1972 by the Board of Chosen Freeholders of the County of Camden, State of New Jersey.

The Authority was created for the purpose of acquiring, constructing, maintaining and operating facilities for the collection, treatment, purification or disposal of sewerage or other wastes for the relief of waters in, bordering or entering the County of Camden (the "County") from pollution or threatened pollution and for the improvement of conditions affecting the public health.

The Authority has entered into a service agreement with its member municipalities within the County. The Authority bills and collects its revenue from the users of the system sufficient to pay or provide for the expenses of operation, repair and maintenance of the system, debt service, deficits (if any), and maintain reserves and sinking funds as may be required.

The County is obligated to pay the Authority, pursuant to a Deficiency Agreement, any annual charges equal to any deficits in revenues necessary to pay or provide for (i) operation and maintenance expenses, (ii) principal and interest payments on bonds and notes in an aggregate principal amount not to exceed \$685,500,000 and (iii) the maintenance of reserves required under the Bond Resolution securing the Authority's bonds and notes.

**Component Unit**

In evaluating how to define the Authority for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB Statements No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, GASB Statement No. 61, *The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34*, and GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14*. Blended component units, although legally separate entities, are in-substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and / or its citizens.

A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Component Unit (Cont'd)**

Based upon the application of these criteria, the Authority has no component units and is a component unit of the County of Camden.

**Basis of Presentation**

The financial statements of the Authority have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to enterprise funds of State and Local Governments on a going concern basis. The focus of enterprise funds is the measurement of economic resources, that is, the determination of operating income, changes in net position (or cost recovery), financial position and cash flows. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The Authority is a single enterprise fund and maintains its records on the accrual basis of accounting. Enterprise funds account for activities (i) that are financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity; or (ii) that are required by law or regulations that the activity's cost of providing services, including capital cost (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues; or (iii) that the pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service). Under this method, revenues are recorded when earned and expenses are recorded when the related liability is incurred.

**Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Enterprise funds are accounted for using the accrual basis of accounting.

**Revenues -- Exchange and Non-Exchange Transactions** - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. Sewer service charges are recognized as revenue when services are provided. Connection fees are paid to the Authority at the time a property applies for connection to the regional sewer system and are recognized as revenue when the funds are received. At the time the municipality issues a release for certificate of occupancy, the Authority determines that sewage collection services are being provided to the properties and begins the billing process.

Non-exchange transactions, in which the Authority receives value without directly giving equal value in return, include grants, contributed capital, and donations. Revenue from grants, contributed capital, and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the Authority must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Authority on a reimbursement basis.

**Expenses** - On the accrual basis of accounting, expenses are recognized at the time they are incurred.

**Budgets and Budgetary Accounting**

The Authority must adopt an annual budget in accordance with N.J.A.C. 5:31-2. N.J.A.C. 5:31-2 requires the governing body to introduce the annual Authority budget at least 60 days prior to the end of the current year and to adopt not later than the beginning of the Authority's year. The governing body may amend the budget at any point during the year. The budget is adopted on the accrual basis of accounting with provisions for cash payments for bond principal. Depreciation expense, bond issue costs, bond premiums, deferred loss on defeasance are not included in the budget appropriations.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Budgets and Budgetary Accounting (Cont'd)**

The legal level of budgetary control is established at the detail shown on the Comparative Statement of Revenues, Expenses and Changes in Net Position. All budget transfers and amendments to those accounts must be approved by resolution of the Authority as required by the Local Finance Board. Management may transfer among supplementary line items as long as the legal level line items are not affected. There are no statutory requirements that budgetary line items not be over-expended. The Authority did not adopt an amending budget resolution during the year.

The Authority records encumbrances. An encumbrance represents a commitment related to unperformed contracts for goods or services. The issuance of a purchase order or the signing of a contract would create an encumbrance. The encumbrance does not represent an expenditure for the period, only a commitment to expend resources. At year-end, the accounting records are adjusted to record only expenses in accordance with generally accepted accounting principles.

**Cash, Cash Equivalents and Investments**

Cash and cash equivalents include petty cash, change funds and cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Such is the definition of cash and cash equivalents used in the statement of cash flows. U.S. treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey governmental units are required by N.J.S.A. 40A:5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or of the State of New Jersey or in the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of investments which may be purchased by New Jersey municipal units. These permissible investments generally include bonds or other obligations of the United States of America or obligations guaranteed by the United States of America, government money market mutual funds, any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, bonds or other obligations of the local unit or bonds or other obligations of school district of which the local unit is a part or within which the school district is located, bonds or other obligations approved by the Division of Local Government Services in the Department of Community Affairs for investment by local units, local government investment pools, deposits with the State of New Jersey Cash Management Fund, and agreements for the purchase of fully collateralized securities with certain provisions. In addition, other State statutes permit investments in obligations issued by local authorities and other state agencies.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

Additionally, the Authority has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act. In lieu of designating a depository, the cash management plan may provide that the local unit make deposits with the State of New Jersey Cash Management Fund.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Inventories**

Inventory consists principally of chemicals for the treatment of waste water, sewerage and sludge and is valued at cost. The Authority has determined that the inventories are immaterial and are not recorded in the financial statements.

**Prepaid Expenses**

Prepaid expenses recorded on the financial statements represent payments made to vendors for services that will benefit periods beyond the applicable year end. The Authority had no prepaid expenses for the years ended December 31, 2017 and 2016.

**Capital Assets**

Capital assets primarily consist of expenditures to acquire, construct, place in operation and improve the facilities of the Authority. Assets purchased are stated at actual cost. Donated capital assets are recorded at their fair market value as of the date received.

Expenditures, which enhance the asset or significantly extend the useful life of the asset are considered improvements and are added to the fixed asset's currently capitalized cost. The cost of normal repairs and maintenance are not capitalized. Costs incurred during construction of an asset are recorded as construction in progress. In the year that the project is completed, these costs are transferred to Utility Plant-In Service. Interest costs incurred during construction are not capitalized into the cost of the asset.

Expenditures are capitalized when they meet the following requirements:

- 1) Cost of \$5,000.00 or more
- 2) Useful life of more than one year
- 3) Asset is not affected by consumption

**Depreciation**

Depreciation is provided using the straight-line method over the following estimated useful life of the assets:

|                                | <u>Years</u> |

**Bond Premiums**

Bond premiums arising from the issuance of long-term debt (bonds) are amortized over the life of the bonds, in a systematic and rational method, from the issue date to maturity as a component of interest expense. Bond premiums are presented as an adjustment of the face amount on the bonds.

**Deferred Outflows of Resources**

The Authority reports decreases in net position that relate to future periods as deferred outflows of resources in a separate section of its statements of net position. The deferred outflows of resources reported in this year's financial statements are preoperating cost, a deferred amount arising from a loss on refunding of long term debt and a deferred outflow of resources for contributions made to the Authority's defined benefit pension plans between the measurement date of the net pension liabilities from those plans and the end of the Authority's year. The deferred refunding amount is being amortized over the remaining life of the refunding bonds as part of interest expense.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Deferred Inflows of Resources**

The Authority's statements of net position report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position that applies to future periods. Deferred inflows of resources are reported in the Authority's comparative statements of net position for a deferred interest revenue and for actual pension plan investment earnings in excess of the expected amounts included in determining pension expense. This deferred inflow of resources is attributed to pension expense over a total of five (5) years, including the current year.

**Compensated Absences**

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and other compensated time. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the Authority and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the Authority and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

**Unearned Revenue**

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied and is recorded as a liability until the revenue is both measurable and the Authority is eligible to realize the revenue.

**Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System ("PERS") and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Net Position**

In accordance with the provisions of GASB Statement No. 34 ("Statement 34") of the Governmental Accounting Standards Board *"Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments"*, the Authority has classified its net position into three components – net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

**Net Investment in Capital Assets** - This component of net position consists of capital assets, net of accumulated depreciation, reduced, by the outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also should be included in this component of net position. If there are significant unspent related debt proceeds or deferred inflows of resources at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflows of resources should be included in the same net position component as the unspent amount.

**Restricted** - Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Net Position (Cont'd)**

**Unrestricted** - This component of net position consists of net position that does not meet the definition of "restricted" or "net investment in capital assets." This component includes net position that may be allocated for specific purposes by the Board.

**Income Taxes**

The Authority operates as defined by the Internal Revenue Code Section 115 and appropriately is exempt from income taxes under Section 115.

**Operating and Non-Operating Revenues and Expenses**

Operating revenues include all revenues derived from waste water treatment and sewer collection facilities (i.e., user service charges and connection fees) and other revenue sources. Non-operating revenues principally consist of certain grant revenues and interest income earned on various interest-bearing accounts and on investments in debt securities.

Operating expenses include expenses associated with the operation, maintenance and repair of the treatment system and general administrative expenses. Non-operating expenses principally include expenses attributable to the Authority's interest on funded debt, bond issuance costs, amortization and other community service projects.

**Accounting Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Reclassifications**

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

**Impact of Recently Issued Accounting Policies****Recently Issued and Adopted Accounting Pronouncements**

For the year ended December 31, 2017, the Authority adopted Governmental Accounting Standards Board (GASB) Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. The adoption of this Statement had no impact on the Authority's financial statements.

Also, the Authority adopted GASB Statement No. 80, *Blending Requirements for Certain Component Units an amendment of GASB Statement No. 14*. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, *Determining Whether Certain Organizations Are Component Units*. The adoption of this Statement had no impact on the Authority's financial statements.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Recently Issued and Adopted Accounting Pronouncements (Cont'd)**

Next, the Authority adopted GASB Statement No. 81, *Irrevocable Split-Interest Agreements*. This Statement improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The adoption of this Statement had no impact on the Authority's financial statements.

Lastly, the Authority adopted GASB Statement No. 82, *Pension Issues and amendment of GASB Statements No. 67, No. 68, and No. 73*. This Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The adoption of this Statement had no impact on the Authority's financial statements.

**Recently Issued Accounting Pronouncements**

The GASB has issued the following Statements which will become effective in future years as shown below:

Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. The Statement will become effective for the Authority in the year ending December 31, 2018. Management has not yet determined the impact of this Statement on the financial statements.

Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The Statement will become effective for the Authority in the year ending December 31, 2019. Management does not expect this Statement will have an impact on the financial statements.

Statement No. 84, *Fiduciary Activities*. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The Statement will become effective for the Authority in the year ending December 31, 2020. Management does not expect this Statement will have an impact on the financial statements.

Statement No. 85, *Omnibus 2017*. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). The Statement will become effective for the Authority in the year ending December 31, 2018. Management does not expect this Statement will have an impact on the financial statements.

Statement No. 86, *Certain Debt Extinguishment Issues*. The objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The Statement will become effective for the Authority in the year ending December 31, 2018. Management has not yet determined the impact of this Statement on the financial statements.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Recently Issued Accounting Pronouncements (Cont'd)**

Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The Statement will become effective for the Authority in the year ending December 31, 2020. Management has not yet determined the impact of this Statement on the financial statements.

Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*. The objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. The Statement will become effective for the Authority in the year ending December 31, 2019. Management has not yet determined the impact of this Statement on the financial statements

**Note 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY****Compliance with Finance Related Legal and Contractual Provisions**

Management of the Authority is unaware of any material violations of finance related legal and contractual provisions.

**General Bond Resolution**

The Authority is subject to the provisions and restrictions of the 1987 Sewer Revenue Bond Resolution adopted May 26, 1987 and all subsequent supplemental resolutions. An Amended and Restated Sewer Revenue Bond Resolution was adopted on October 10, 1995, in order to consolidate all previous supplemental resolutions to date. A summary of the activities of each fund created by the Bond Resolution is covered below.

**Revenue Fund** - The Revenue Fund accounts for resources and expenditures of a general nature. If the Authority is not in default in the payment of bond principal or interest and all fund requirements are satisfied, the excess funds may be used by the Authority for any lawful purpose.

**Debt Service** – The Debt Service Fund must maintain a balance on deposit sufficient to enable the Trustee to withdraw amounts equal to interest due on bonds and loans, principal amounts maturing on bonds and loans and sinking fund installments, when such payments are required.

**Debt Service Reserve Fund** – The amount of funds on deposit must be maintained at a level equal to Maximum Debt Service to insure funds are available for payment of debt service.

**Renewal and Replacement Fund** – These funds are maintained for reasonable and necessary expenses with respect to the system for major repairs, renewals, replacements or maintenance items of a type not recurring annually.

**Construction Account** – The Construction Fund is held by the Trustee and shall be applied to pay the cost of projects and is pledged, pending application to such costs, for the security of the payment of principal and interest on the Sewer Revenue Bonds.

**Special Reserve Fund** – The Special Reserve Fund accounts for funds in accordance with the Special Reserve Fund Deposit Requirement.

**Note 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONT'D)**

**Excess Expenditures over Appropriations**

The following appropriation categories had expenditures that exceed appropriations for the year ended December 31, 2017:

| <u>Category</u> | <u>Appropriation</u> | <u>Expenditures</u> | <u>Excess</u> | <u>Comment on Excess</u>   |
|-----------------|----------------------|---------------------|---------------|--|
| Administration: |                      |                     |               |  |
| Other Expenses  | \$3,529,473          | \$4,191,190         | \$661,717     | Higher than expected bank fees and debt service admin fees; higher than expected bad debt expense and contingency expense. |

**Debt Service Coverage**

Section 4.01 of the Amended and Restated Bond Resolution adopted October 10, 1995 requires certain ratios of Net Revenues at least equal to 1.00 times the Debt Service Requirements of Bonds within the coverage of the County Agreement for such Bond Year. Pursuant to the understanding at the time of issuance of the Sewer Revenue Capital Appreciation Bonds any accretion in value of the Capital Appreciation Bonds above the original principal amount of the Bonds at initial issuance is treated as accreted interest for the purpose of defining coverage within the County Agreement.

Compliance with this covenant is calculated as follows:

| <u>1995 Bond Resolution</u>   | <u>Bond Year Ending<br/>December 31, 2017</u> |
|---|---|
| Gross Revenues:   |   |
| Operating Revenues  | \$ 90,224,676                                 |
| Interest Income   | 234,961                                       |
| Total Gross Revenues  | 90,459,637                                    |
| Operating Expenses, exclusive of depreciation   | 38,030,058                                    |
| Net Revenues  | 52,429,579                                    |
| Debt Service Requirement of all Bonds issued under this Resolution (treating all Bonds as a single issue of Bonds for purposes of this calculation) * | 56,068,075                                    |
| Temporary Funding Notes   | (13,583,459)                                  |
|   | 42,484,616                                    |
| Sufficiency of Net Revenues   | \$ 9,944,963                                  |

The amount of outstanding bonds is less than \$685,500,000 and all such bonds are entitled to the benefits of the County Agreement.

\* Annual Debt Service stated above does not include amortization of bond premiums, deferred amount on defeasance or accreted interest on capital appreciation bonds.

**Note 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONT'D)****Renewal and Replacement/System Reserve Requirement**

In accordance with Section 6.15 of the Amended and Restated Bond Resolution adopted October 10, 1995, within thirty (30) days prior to the end of each year, the Authority shall certify as of the end of such year or the beginning of the succeeding year the amount which is reasonably required to be held in the System Reserve Account in the Renewal and Replacement Fund as the then-current System Reserve Requirement. As defined in the bond resolution, the system reserve requirement shall mean the greater of:

|   |                     |
|---|---------------------|
| (a1) the amount stated as required as a reserve in the System Reserve Account in the Consulting Engineer's Certificate most recently filed with the Trustee pursuant to Section 6.15 hereof, plus the | \$ 3,028,000        |
| (a2) Consulting Engineer's Certificate for Plant Renewal and Replacement  | <u>3,518,000</u>    |
| Total Consulting Engineer's Certified Amount  | <u>\$ 6,546,000</u> |
| or (b) five percent (5%) of the Gross Revenues set forth in the Authority's then current Annual Budget (\$93,608,035 x 5%)  | <u>\$ 4,680,402</u> |
| Total Renewal and Replacement / System Reserve  | \$ 6,546,000        |
| Amount of Renewal and Replacement / System Reserve Funded   | <u>6,546,000</u>    |
| Overfunded Total Renewal and Replacement / System Reserve   | <u>\$ -</u>         |

The bond resolution established four (4) levels of funds that must be maintained and are ordered by priority. The fourth and lowest prioritized level is the Renewal and Replacement Fund/System Reserve Account. If there are insufficient funds in this account, the Trustee is directed to transfer funds into the reserve as they become available.

**Note 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONT'D)****Debt Service Reserve Requirement**

Section 1.01 of the Amended and Restated Bond Resolution adopted October 10, 1995 indicates the debt service reserve requirement shall mean the lesser of:

|   |                      |
|---|----------------------|
| (a) the Maximum Annual Debt Service Requirement of all Bonds issued under this Resolution (treating all Bonds as a single issue of Bonds for purposes of this calculation),   | \$ 12,294,388        |
| or  |                      |
| (b) the sum of:   |                      |
| (i) the then applicable Periodic Debt Service Reserve Requirement,  | \$ 40,387,238        |
| (ii) upon the issuance of any series of Additional Bonds after the 1990 Bonds, the Maximum Annual Debt Service Requirement on all Outstanding Bonds of such series less the amount, if any, of the reduction in the Maximum Annual Debt Service on any series of Bonds refunded with such series of Additional Bonds: |                      |
| 2000 Series A, 2000-05  | \$162,643            |
| 2000 Series A, 2000-07  | 93,776               |
| 2003 Series A   | 317,621              |
| 2006 Series A   | 384,160              |
| 2006 Series A (Refunding)   | 315,670              |
| 2006 Series A (Refunding)   | <u>295,519</u>       |
|   | 1,569,389            |
| (iii) on December 2, 1997, the Maximum Annual Debt Service Requirement on any 1987 Bonds maturing on December 31, 2007 Or December 1, 2017 then outstanding.  | <u>-</u>             |
|   | <u>\$ 41,956,627</u> |
| Letter of Credit, as more fully described below   | <u>12,294,388</u>    |
| Restricted Net Position   | <u>\$ -</u>          |

Therefore, the defined Debt Service Reserve Requirement as of December 31, 2017 shall equal \$12,294,388.

The Authority has funded the Debt Service Reserve Requirement as of December 31, 2017 as follows:

|   |                      |
|---|----------------------|
| Amount on Deposit                             | \$ 4,299,445         |
| Interest Receivable                           | 7,054                |
| Credit Facility Instrument (Letter of Credit) | <u>18,000,000</u>    |
|   | <u>\$ 22,306,499</u> |

**Note 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONT'D)****Debt Service Reserve Requirement (Cont'd)**

**Letter of Credit** - The Amended and Restated Bond Resolution adopted October 10, 1995 permits the Authority to evidence a portion of the Debt Service Reserve Requirement by a Credit Facility, which would allow for the removal of a corresponding amount of cash from the Debt Service Reserve Fund. On May 18, 2015, the Authority accepted a Credit Facility from Assured Municipal Corporation "AGM" in the form of Municipal Bond Debt Service Reserve Insurance Policy in the amount of \$18,000,000. The policy allows the Authority to use cash and investments in the Debt Service Reserve to make current payments for debt principal and interest up to the amount of policy. The policy serves as the replacement of the cash and investments to meet the debt service reserve requirement as indicated in Section 1.01 of the amended and restated bond resolution adopted October 10, 1995.

**Subordinate Bond Resolution**

The Authority is further subject to the provisions and restrictions of several Subordinate Resolutions initially adopted on July 17, 2006 (the "Subordinate Resolution") as amended and supplemented at the time each subordinate bond is issued. Section 4 of the Subordinate Resolution creates an obligation on the Authority to the payment of principal and interest on the Subordinate Bonds. The Subordinate Bonds are secured by the pledge of amounts which may be withdrawn from the Renewal and Replacement Fund of the General Bond Resolution pursuant to and subject to the limitations of Paragraph (e) of Section 4.12, which states ...the Trustee shall (i) ... withdraw from and pay out of the Renewal and Replacement Fund, free and clear of the lien, pledge and security interest created hereby, any amounts in excess of the foregoing, which amounts as so withdrawn by the Authority may be used or applied by it to any lawful purpose of the Authority. The pledge of revenues and other such funds is subordinate to the provisions of the General Bond Resolution and the lien and pledge created by the General Bond Resolution.

**Note 3: DETAIL NOTES - ASSETS****Cash and Cash Equivalents**

**Custodial Credit Risk Related to Deposits** - Custodial credit risk is the risk that, in the event of a bank failure, the Authority's deposits might not be recovered. Although the Authority does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). Under the Act, the first \$250,000.00 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the Authority in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings or funds that may pass to the Authority relative to the happening of a future condition. If the Authority had any such funds, they would be shown as Uninsured and Uncollateralized in the schedule below.

As of December 31, 2017 and 2016, the Authority's bank balances were exposed to custodial credit risk as follows:

|  | <u>2017</u>          | <u>2016</u>          |
|--|----------------------|----------------------|
| Uninsured and Collateralized with Securities<br>Held by Pledging Bank's Trust Department,<br>but not in the Authority's Name | \$ 20,965,522        | \$ 14,860,487        |
| Insured by F.D.I.C.  | <u>1,000,000</u>     | <u>1,000,000</u>     |
| Total Bank Balance   | <u>\$ 21,965,522</u> | <u>\$ 15,860,487</u> |

**Note 3: DETAIL NOTES – ASSETS (Cont'd)****Investments**

New Jersey authorities are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 40A:5-15.1 provides a list of permissible investments that may be purchased by New Jersey authorities. These permissible investments generally include bonds or other obligations of the United States of America or obligations guaranteed by the United States of America, government money market mutual funds, any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, bonds or other obligations of the local unit or other obligations of the local unit or units within which the Authority is located, bonds or other obligations approved by the Division of Investment in the Department of Treasury for investment by authorities, local government investment pools, deposits with the State of New Jersey Cash Management Fund, and agreements for the purchase of fully collateralized securities with certain provisions. The Authority has no investment policy that would further limit its investment choices.

**Custodial Credit Risk** – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party if the counterparty to the transactions fails. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Authority, and are held by either the counterparty or the counterparty's trust department or agent but not in the Authority's name. Other than the rules and regulations promulgated by N.J.S.A. 40A:5-15.1, the Authority has no investment policy to limit its exposure to custodial credit risk. All of the Authority's \$2,638,124 as of December 31, 2017 and \$8,066,789 as of December 31, 2016 investments in treasury obligations are uninsured and unregistered with securities held by the counterparty's trust department in the Authority's name.

**Concentration of Credit Risk** – Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Other than the rules and regulations promulgated by N.J.S.A. 40A:5-15.1, the Authority's investment policies place no limit on the amount the Authority may invest in any one issuer. All of the Authority's investments are in short-term treasury obligations investments.

As of December 31, 2017 and 2016 the Authority had the following investments:

| <u>Investment</u> | <u>Maturity Date</u> | <u>Moody's<br/>Credit Rating</u> | <u>Fair Value<br/>Hierarchy<br/>Level *</u> | <u>2017<br/>Fair Value</u> | <u>2016<br/>Fair Value</u> |

| US Treasury Notes | 08/31/18             | Aaa                              | Level 1                                     | <u>\$2,638,124</u>         | <u>\$8,066,789</u>         |

\*Level 1 inputs are quoted (unadjusted) prices in active markets for identical assets that the government can access at the measurement date. Observable markets include exchange markets, dealer markets, brokered markets and principal-to-principal markets.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the assets, either directly or indirectly. These inputs are derived from or corroborated by observable market data through correlation.

Level 3 inputs are unobservable inputs for the assets; they should be used only when the relevant Level 1 and Level 2 inputs are unavailable.

**Note 3: DETAIL NOTES – ASSETS (CONT'D)****Investments (Cont'd)**

**Interest Rate Risk** – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Other than the rules and regulations promulgated by N.J.S.A. 40A:5-15.1, the Authority does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Credit Risk** – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. As stated in note 1, investments are purchased in accordance with N.J.S.A. 40A:5-15.1. Other than the rules and regulations promulgated by N.J.S.A. 40A:5-15.1, the Authority has no investment policy that would further limit its exposure to credit risk.

**Service Fees**

The following is a three-year comparison of service charge billings and collections for all types of accounts maintained by the Authority:

Any collection of delinquent account balance by the municipal tax collectors is subsequently forwarded to the Authority.

**Note 4: DETAIL NOTES – DEFERRED OUTFLOWS OF RESOURCES****Preoperating Costs**

Prior to the operation of sewer plants, the Authority incurred preoperating costs in the amount of \$15,685,747. These costs are being amortized using the straight line method over 40 years from 1981 to 2021. The unamortized portion of preoperating costs is reported in the accompanying financial statements as a deferred outflow of resources.

**Deferred Loss of Defeasance of Debt**

In 2016 and 2017, the New Jersey Environmental Infrastructure Trust advance refunded the Authority's 2008A, 2010B, and 2010A Serial Bonds. The advance refundings resulted in differences between the reacquisition price and net carrying amount of the old debt in the aggregate amount of \$653,591. This difference, reported in the accompanying financial statements as a deferred outflow of sources, is being charged to operations as a component of interest expense over the life of the refunding bonds.

**Note 5: DETAIL NOTES – LIABILITIES****Short-term Liabilities**

Short-term debt provides financing for governmental activities.

On January 15, 2017, the Authority entered into an agreement with the County of Camden to borrow \$9,000,000 to fund or finance operations, budgets and cash flow. On December 17, 2017, the Authority repaid the loan plus \$105,000 in interest at a rate of 1.25%.

On July 5, 2017, the Authority issued Tax-Exempt Subordinate Temporary Funding Notes, Series A of 2017 and Taxable Subordinate Temporary Funding Notes, Series B of 2017 in the amount of \$24,000,000, and \$5,000,000, respectively, with a stated interest rate of 2.044% and 2.920%, respectively. These notes, with a maturity date of August 2, 2018, were issued to (i) refund the Authority's then outstanding Temporary Funding Note, Series of 2016 with a principal amount of \$6,000,000; and (ii) fund a deficit in the Authority's revenue. The gross revenues of the Authority are hereby irrevocably pledged for the punctual payment of the principal and interest of these notes according to its terms, said pledge being subordinate to the pledge of gross revenues made by the Authority as security for the Priority Bonds (as defined in the Resolution).

**Revenue Bonds Payable - Series 1990A, 1990B, and 2006A**

The Revenue Bonds Series 1990A, 1990B, and 2006A are direct obligations of the Authority. The Bonds are secured by a pledge on the Revenues derived by the Authority from the operation of its sewerage treatment facilities.

**1990 Refunding**

On February 21, 1990, the Authority issued \$115,830,387 County Agreement Sewer Revenue Capital Appreciation Bonds, 1990A Series and \$121,677,019 County Agreement Sewer Revenue Capital Appreciation Bonds, 1990B Series. A majority of the proceeds were utilized to refund or pay a portion of the principal of and interest on the 1987 Sewer Revenue Bonds and the New Jersey Wastewater Treatment Trust and Fund Bonds; permanently finance certain projects through the redemption in whole of the \$109,000,000 1987 Bond Anticipation Notes; make a deposit in the Debt Service Reserve Fund; and pay the expenses incurred in connection with the issuance of the Bonds, including the payment of a municipal bond insurance premium.

As security for the Authority's payment obligations on the 1990A and 1990B Bonds, the Resolution creates a senior lien on and grants a security interest in the gross revenues of the Authority, investment earnings and other cash receipts. Interest on the 1990 Bonds will not be paid semiannually, but only upon maturity or earlier acceleration (capital appreciation bonds). Such interest accrues from the date of issuance and compounds semiannually. The 1990 Bonds are priced to produce an approximate yield to maturity ranging from 6.80% to 7.35%. The 1990A Bonds have final maturity in 2019 and the 1990B Bonds matured in 2017.

**Unearned Clean Water Act Fines**

In 1972, Congress enacted the first comprehensive national clean water legislation in response to growing public concern for serious and widespread water pollution. The Clean Water Act (CWA) is the primary federal law that protects our nation's waters, including lakes, rivers, aquifers and coastal areas.

The CWA established the basic structure for regulating discharges of pollutants into the waters of the United States by making it unlawful for any person to discharge any pollutant from a point source unless a permit was obtained under its provisions. The Water Pollution Control Act (WPCA), enacted in 1977, enabled New Jersey to implement the New Jersey Pollutant Discharge Elimination System (NJPDDES) permitting system required under the CWA, whereby a person must obtain a NJPDDES permit in order to discharge a pollutant into surface water or ground water of the State or to release a pollutant into a municipal treatment works.

In 1990, the Legislature enacted substantial amendments to the WPCA, commonly known as the Clean Water Enforcement Act, P.L. 1990, c. 28 (CWEA). The CWEA requires the department to inspect permitted facilities and municipal treatment works at least annually. Additional inspections are required when the permittee is identified as a significant noncomplier. The CWEA also requires the assessment of mandatory minimum penalties for violations of the WPCA that are considered serious violations and for violations by permittees designated as significant noncompliers.

The CWEA mandates that 10 percent of the fines and penalties collected for violations of the CWEA be deposited in the State Licensed Operator Training Account at the NJDEP. The balance collected can be utilized by the Local Agency (the Authority) to offset the cost of the pretreatment program, funding for enforcement purposes and for upgrading municipal treatment facilities.

At December 31, 2017 and 2016, the penalties receivable amounted to \$113,700 and \$112,367, respectively. In accordance with the state statute, no allowance has been made for the collectability of this amount. Also, at December 31, 2017 and 2016, the amount due to the NJDEP for 10 percent of the penalties collected was \$213,484 and \$205,784, respectively.

**Pension Plans**

A substantial number of Authority employees participate in the Public Employees' Retirement System ("PERS"), a defined benefit pension plan, which is administered by the New Jersey Division of Pensions and Benefits ("the Division"). In addition, Authority employees may participate in the Defined Contribution Retirement Program ("DCRP"), which is a defined contribution pension plan. This plan is administered by Prudential Financial for the New Jersey Division of Pensions and Benefits. Each plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to:

The DCRP is a tax-qualified defined contribution money purchase pension plan under Internal Revenue Code (IRC) § 401(a) et seq., and is a "governmental plan" within the meaning of IRC § 414(d). The DCRP provides retirement benefits for eligible employees and their beneficiaries. Individuals covered under DCRP are employees enrolled in PERS on or after July 1, 2007, who earn salary in excess of established "maximum compensation" limits; employees enrolled in PERS after May 21, 2010, who earn salary in excess of established "maximum compensation" limits; employees otherwise eligible to enroll in PERS on or after November 2, 2008, who do not earn the minimum annual salary for tier 3 enrollment but who earn salary of at least \$5,000 annually; and employees otherwise eligible to enroll in PERS after May 21, 2010 who do not work the minimum number of hours per week required for tiers 4 or 5 enrollment, but who earn salary of at least \$5,000 annually.

**Contributions**

**Public Employees' Retirement System** - The contribution policy is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. Members contribute at a uniform rate. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years beginning in July 2012. The member contribution rate was 7.20% in State fiscal year 2017 and 7.06% in State fiscal year 2016. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. The rate for members who are eligible for the Prosecutors Part of PERS (Chapter 366, P.L. 2001) was 10% in State fiscal year 2017. Employers' contribution are based on an actuarially determined amount, which includes the normal cost and unfunded accrued liability.

The Authority's contractually required contribution rate for the years ended December 31, 2017 and 2016 was 13.48% and 13.26%, respectively, of the Authority's covered payroll. These amounts were actuarially determined as an amount that, when combined with employee contributions, are expected to finance the costs of benefits earned by employees during the year, including an additional amount to finance any unfunded accrued liability.

**Actuarial Assumptions - PERS**

The net pension liability was measured as of June 30, 2017 and 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016 and 2015. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2017 and 2016. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

**Note 5: DETAIL NOTES – LIABILITIES (CONT'D)****Pension Plans (Cont'd)****Actuarial Assumptions – PERS (Cont'd)**

For the June 30, 2017 measurement date, preretirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

For the June 30, 2016 measurement date, preretirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. Mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2017 and 7.65% at June 30, 2016) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2017 and 2016 are summarized in the table on the following page.

**Discount Rate** - The discount rate used to measure the total pension liability at June 30, 2017 was 5.00%. The respective single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.58% as of June 30, 2017, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rates assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 40% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2040. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2040, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liabilities.

**Note 5: DETAIL NOTES – LIABILITIES (CONT'D)****Pension Plans (Cont'd)****Actuarial Assumptions – PERS (Cont'd)**

**Discount Rate (Cont'd)** - The discount rate used to measure the total pension liability at June 30, 2016 was 3.98%. The respective single blended discount rates were based on the long-term expected rate of return on pension plan investments of 7.65%, and a municipal bond rate of 2.85% as of June 30, 2016, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rates assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 30% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2034. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2034, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liabilities.

**Pension Plan Fiduciary Net Position**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the respective fiduciary net position of the PERS and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. Accordingly, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. For additional information about PERS, please refer to the plan's Comprehensive Annual Financial Report (CAFR) which can be found at <http://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

**Note 5: DETAIL NOTES – LIABILITIES (CONT'D)****Early Retirement Incentive Program**

Legislation enacted in 2003 made early retirement available through Early Retirement Incentive Programs. This program, which is subject to the approval of the Authority's governing body (within a limited period of time), was available to employees who met certain minimum requirements. The governing body of the Authority approved the program on June 21, 2004 for eligible members of the PERS. Six employees applied for early retirement during the 2003 program. Program costs are billed annually by the Division of Pensions. As of December 31, 2017 and 2016, the accrued liability to the PERS for the 2003 program was \$231,494 and \$288,499 payable in annual installments of \$56,655 to April 1, 2021.

**Post-Employment Benefits****State Health Benefits**

**Plan Description** - The Authority contributes to the State Health Benefits Program ("SHBP"), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan, administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under N.J.S.A. 52:14-17.25 et seq., to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents.

The SHBP was extended to employees, retirees, and dependents of participating local public employers in 1964. Local employers must adopt a resolution to participate in the SHBP. In 2012, the Authority authorized participation in the SHBP's post-retirement benefit program through resolution number 12:5-85. The Authority provides postemployment health care benefits, at its cost, for all employees, not covered by another plan, who retire from the Authority with 25 years or more of service credited by a New Jersey pension system. Benefits provided include health insurance and prescription coverage for retirees and their dependents only during the retired employees' life.

The State Health Benefits Commission is the executive body established by statute to be responsible for the operation of the SHBP. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That report may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295 or by visiting their website at [www.state.nj.us/treasury/pensions/](http://www.state.nj.us/treasury/pensions/).

**Funding Policy** - Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis.

Contributions to pay for the health premiums of participating retirees in the SHBP are billed to the Authority on a monthly basis. The Authority funds these benefits on a pay-as-you-go basis.

The Authority's contributions to SHBP for the years ended December 31, 2017, 2016 and 2015, were \$332,198, \$297,702, and \$229,370, respectively, which equaled the required contributions each year. There were approximately 29, 22 and 20 retired employees receiving benefits at December 31, 2017, 2016 and 2015, respectively.

**United Food and Commercial Workers and Participating Food Industry Employers TRI-State Health & Welfare Fund Plan**

**Plan Description** - The Authority contributes under provisions of a union contract to the United Food and Commercial Workers post-employment health benefits to eligible retirees and their spouses through the Union's United Food and Commercial Workers and Participating Employers TRI-State Food Industry Health & Welfare Fund Plan (the Fund).

**Note 5: DETAIL NOTES – LIABILITIES (CONT'D)****Post-Employment Benefits (Cont'd)****United Food and Commercial Workers and Participating Food Industry Employers TRI-State Health & Welfare Fund Plan (Cont'd)**

The benefit is provided to eligible retirees hired prior to December 31, 2011 that have been employees for or have at least twenty-five (25) years of service credited by a New Jersey pension system and are over fifty-five (55) years of age. For employees hired on or after January 1, 2012, eligible retirees are those employees that retire from the Authority after twenty-five (25) years or more of service credited by a New Jersey pension system and are over the age of sixty-two (62).

**Funding Policy** - The Authority contributes health insurance and prescription plan premiums to the Fund for eligible retirees and their spouses until they reach the age of sixty-five (65) when they are then required to enroll into the Medicare program for which the Fund coverage is supplemental.

Contributions to pay for the health premiums of participating retirees in the Fund are billed to the Authority on a monthly basis. The Authority funds these benefits on a pay-as-you-go basis.

The Authority's post-employment benefits contribution to the Fund for the years ended December 31, 2017, 2016 and 2015 were \$349,949, \$254,510 and \$184,226, respectively, which equaled the required contributions for each year. There were approximately 24, 26 and 23 retired employees receiving benefits at December 31, 2017, 2016 and 2015, respectively.

The Fund issues a publicly available financial report that includes financial statements and required supplementary information for the plan.
