

### **New Jersey Environmental Infrastructure Financing Program S34-640-34-A**

Construction of upgrades and improvements to CCMUA's Pump Stations, located in various municipalities within Camden County with a capital cost of \$8,395,133 were financed by the New Jersey Water Bank (NJWB). The NJWB is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Infrastructure Bank (NJIB) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the NJIB to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will provide water quality benefits by replacing and repairing aging equipment and infrastructure, increasing efficiency and extending the life of the existing Pump Stations which will benefit residents and businesses in Camden County.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
